校長的話

張昌明校長

感謝天父的帶領及聖公宗（香港）小學監理委員會之委派，本人自 2012 年便擔任聖公會何澤芸

小學校長一職。憑藉天父賜予之力量，我定將竭盡所能，與

法團校董會、教職員生及其他持分者用心經營，讓學校在往後日子裡，能在區內、外繼續發光發熱，造福莘莘學子，帶領學校邁向更璀璨及光輝的未來！

作為聖公會何澤芸小學之校長，能看到學生健康愉快地成長，並在完善的幼小及升中銜接推動下，學生能展開持續之生涯規劃，盡展潛能，一步一步地邁向目標，將是我繼續委身教育的力量泉源。究竟在資訊澎湃及人工智能日趨普及的時代裡，學校教育應扮演一個怎樣的角色？我認為老師在教育範式的轉移下，不單是知識的傳授者，更是知識的促進者，發展學生自主學習及高階思維的能力，讓學生掌握解難及慎思明辨的技巧，與時並進，緊貼時代脈搏，好好裝備自己，但同時不忘與人建立和諧的人際及合作關係，知彼知己，常存感恩及謙卑的心，懂得愛與被愛，成為一位愛家庭、愛學校、愛香港、愛國家的好學生。

期盼在聖公會何澤芸小學裡，學生能對學習培養出一份獨特的使命感，將所學到的知識回饋社會，榮神益人，不單為自我增值，更要創造多元的人生價值，以「人無我有，人有我優，人優我變」的創意思維，以及「沒有最好，只有更好」的正向動力，作為不斷向前奮鬥和自我完善的座右銘。

「教養孩童，使他走當行的道，就是到老他也不偏離。」
(箴言 22 章 6 節)

願共勉之！

Message from Principal

Mr. Eric Cheung Cheong Ming

Welcome to visit the website of S.K.H. Ho Chak Wan Primary School. I am sure that you will learn more about the fantastic school life of our students as well as the sustainable changes in every aspect of our school that help students adapt to the rapidly-changing society as well as fit seamlessly into the practical world they are living in.

S.K.H. Ho Chak Wan Primary School is a Government-subsidized school established in 1993. In 2000, we turned to a whole-day school and stayed in the Cheung Hang campus. We embrace the eight core values as stipulated in the letters SKHHCWPS of our school name as well as the fifteen core values in the

S.K.H. schools' missions of education.

Although our school is not a millennium campus, the size is not much smaller than a millennium school. We have a school hall sizable enough to accommodate all students and teachers in school. We have innovative use of every inch of space to well acknowledge and address to the learning needs of our students. We strive to create an environment where each and every student is given the attention necessary to achieve his or her individual success and explore his or her potentials to the maximum. We believe that each student is unique and has different abilities. We respect diversity and explore a variety of learning opportunities to motivate students to achieve a holistic development.

I hope parents agree that our school is the home-away-from-home of their children. We provide no less care parents do to ensure the wellness of their children's physical and psychological needs as well as to provide them with an opportunity to develop their inter-personal and intra-personal skills along with some useful life skills to help them adapt to the world at the time they graduate. We provide a well-rounded education and develop a love of learning that will last their whole life long. We believe that parents play a vital role in their children's learning and thus we work closely to help their children prepare to face the challenges in the 21st century and thereafter.

I am proud and privileged to have been the principal of SKHHCWPS since September 2012. I am sure that our almighty God will inspire me, our Incorporated Management Committee, as well as our professional staff team to sustain a competitive edge and turn a new page to the school development to ascertain that a brighter future for SKHHCWPS can be envisaged.

In SKHHCWPS, I will play a vital role of bridging all stakeholders. It is my firm belief that life-long and life-wide learning are essential to all generations surviving in a world overloaded with information and artificial intelligence. We will keep on further developing SKHHCWPS as a learning organization for students, teachers and parents.

I look forward to welcoming you to our school in person and sharing with you my missions in working in SKHHCWPS with a crew of dedicated staff, caring parents, supportive stake-holders and promising students devoted to striving for excellence in academic studies and other pursuits. We will never stop to contribute and well structure SKHHCWPS to be a quality Christian school.

Every one of our students is a star in the making. Let's work together hand-in-hand in this wonderful journey of nurturing our children with the love for people, the enthusiasm for learning, and the capacity to participate, to empathize, to experience, to share and to excel so that we can stand proud celebrating the success of our graduates.

"Train up a child in the way he should go: and when he is old, he will not depart from it." (Proverbs 22:6)

學校新設施

本校緊隨教育發展的新趨勢，持續添置校園設施及優化校園環境，培養學生掌握廿一世紀必備的學習、工作及生活能力。

- 2021-2022 年度，本校透過運用優質教育基金的撥款，為三十個課室安裝互動電子白板，並於學校禮堂主舞台添置大型LED幕牆；互動電子白板讓教師為學生設計多元化的學習情景，拓寬學生的學習空間，提升學習動機，誘發自主學習；此外，透過互動電子白板的應用，能促進師生與學生互動，有效培養學生的溝通、協作、解難等能力，對於教師照顧學生學習差異亦起積極的作用。禮堂主舞台上的LED幕牆面積廣闊，讓教師在禮堂進行各項學習活動時，能靈活運用多媒體資訊及相關科技，提高活動的質素，有利達致活動的目標；此外，本校禮堂主舞台上另設有大型LED幕牆，讓本校禮堂成為舉行典禮及大型學習活動的理想場地，加上5G網絡的應用，學校持分者參加典禮及活動，便能無遠弗屆。
- 禮堂講台兩側已安裝LED顯示屏，讓學生在台上表演時同步進行攝錄及播放，以增強學生在活動中的參與及互動程度。
- 學校大堂已設置成就龍虎榜及學生獎牌牆，對學生的卓越成就作高度的展示。
- 「校園通話系統」通話分機遍佈在所有課室、特別室、走廊及其他戶外地方，確保師生在緊急時能得到適時及適切的協助。
- 本校已安裝「教師及學生考勤系統」及「門禁系統」，加強對學生關顧之餘，門禁系統更可大大提升校園的保安水平。
- 校內所有水龍頭已轉為紅外線感應式，減少雙手因接觸水龍頭而散播細菌的機會，確保師生及其他使用者的健康；學校大堂已安裝紅外線體溫監測系統及臭氧霧化消毒系統。
- 本校的網頁已採用了新設計，包含更全面的學校資訊，在搜尋資料上令使用者更為便捷。
- 本校已設立GRWTH手機應用程式，家長輕觸螢幕，便可簽發學校的電子通告及進行繳費，亦可知悉學校的最新動態，以及不同的活動及比賽資料，為子女甚或家長本身報名參與。
- 學校中央圖書館設於一樓，佔地廣闊，裝修華麗，除了可收納更多藏書外，亦希望寬敞的環境能激發起學生的閱讀動機，讓學生享受無窮的閱讀樂趣。
- 學校樓層已安裝液晶電視，除向學生發放校園資訊外，亦希望學生能關心發生在身邊的事情。
- 有蓋操場已改名為世界文化廣場，除了掛上充氣地球儀、萬國旗及16個展示世界各地不同時間的時鐘外，牆壁上亦已繪上了漂亮的世界地圖，更將一些國家或城市的景點或特點勾畫出來，配上二維條碼（QR code），同學透過iPad或手機，便可閱覽該景點或特點的資訊，進一步加深對它們的認識。
- 數碼校園電視台（澤芸e台）已正式建立，專業的師生製作團隊及主播陣容，已為校內不同科組攝製了無數的精彩節目，有效發展學生的潛能，以及促進學與教的效能。

- 「得人魚池」內飼養了數十尾精靈活潑的錦鯉。魚池取名「得人」，寓意基督徒要廣傳福音，領更多人歸主，最後得人如得魚一樣。

New facilities

To cope with the rapidly-changing trend in educational development, our school actively imports new campus facilities as well as modifies old campus facilities so as to let students acquire the essential abilities necessary in learning, working and living in the 21st generation.

- Funded by the Quality Education Fund, our school has installed active panels in all 30 standard classrooms and a LED wall on the main stage in our school hall since last academic year. The active panels allow teachers to design diversified learning scenarios to broaden students' learning perspective, boost their learning motivation and facilitate their autonomous learning. The active panels also activate interaction among students to cultivate their abilities in communication, collaboration and problem solving so that teachers can more effectively cater for the learners' difference. The vast area of LED wall on the stage in our school hall allows teachers to carry out more flexible learning activities for students by means of multi-media so that quality of activities can be guaranteed and objectives achieved in a more effective way. Moreover the existence of the LED wall also turns our school hall into an ideal place for holding ceremonies and mass learning activities. The 5G network allows stake-holders of our school to participate ceremonies and activities without barriers.
- LED display boards have been installed on both sides of the stage in the school hall so that when students are performing on stage, their performances can be displayed synchronically on the screens. As a result, the degree of students' participation and interaction will be highly enhanced.
- In the school lobby, there is a board showing students' achievements and there are cabinets where students' trophies are placed to pay tribute to students' efforts in achieving excellence.
- The Campus Intercom System (CIS) is installed in all classrooms, special rooms, corridors and outdoor areas to secure that teachers and students can seek and receive instant help when in emergency.
- The "Students and Staff Attendance Management System" and "Room Access Control System" are installed to help sustain campus security to a high level.
- All taps in our campus are transformed to sensor-activated mode to avoid unnecessary hand contacts with the taps and cross infection of bacteria.
- Infra-red body temperature detecting system and ozone-mist sanitizing system are installed in school lobby.
- Our school website is renovated to make it more user-friendly and information-rich to web-surfers.
- GRWTH app is installed not only to allow parents to respond to e-notices and carry out e-payment more conveniently but also to gain access to school-updates as well as activities for enrolment by both students or parents.
- Our school's Central Library is located on the first floor sizable area and beautiful decorations. More books are stored and students can enjoy reading in a place more spacious and more inviting to read.
- LCD Televisions are installed on every floor in school to convey school messages to students and to allow students to be more aware on matters related to themselves.
- Our school's covered playground is decorated to become the World Cultural Square. A plastic globe is hung and walls are painted into maps with QR codes highlighting specialized areas worth further exploration.
- Digital Campus TV Station (CWtv) is set up at the World Cultural Square. A professional team of teachers and students specializing in production and broadcasting have produced numerous quality episodes to arouse students' learning initiatives.
- Chak Wan Campus Road is also named as The Fruit of the Holy Spirit Lane as nine pillars along the road are painted into trees and fruits summing up the nine attributes of a person or community living in according to the bible.
- The "Fishers of Fish and Fishers of Man" Pond is named according to Jesus' teaching to his disciples who were fishermen that they had to preach God's teaching to as many people as they could like the number of fish they caught in their nets.

小一及小二推行識字教學，讓學生透過有效有趣的學習，提升識字量，進而能夠大量閱讀。在不同的學習階段，透過不同層次的提問及教授不同的閱讀策略，提升學生的思維能力及明辨慎思能力。從小一開始，培養學生課前預習的習慣，提升自學能力。為了培養同學自主學習的精神，一、二年級推行繪本教學，透過繪本教學，除了能培養同學的閱讀興趣，老師透過與同學共讀繪本的過程中，激發學生的想像力，培養創意思維，以及提升學童閱讀及口語表達的能力。寫作教學方面，二年級透過校本單元設計，讓學生循序漸進地掌握寫作模式。三、四年級推行歷程寫作教學，老師設計以讀帶寫的課業課件，建構寫作的鷹架，讓同學在寫作前預先搜集相關的資料；在寫作課堂上，同學與組員互相討論、協作，分享匯報後，運用創意思維，結合閱讀課所學的技巧遷移到寫作。

本校一至三年級學生參加英文閱讀及寫作教學計劃，由駐校外籍英語老師透過具趣味性的課堂活動，讓學生享受閱讀及寫作的樂趣，同時，也透過英文科的校本課程，為學習英語奠定良好的基礎。本校四至六年級推行以讀帶寫的教學模式，除教授閱讀技巧外，也引導學生逐步建構寫作，全面提升學生的英文閱讀及寫作能力。

數學科課堂引入探究式解難活動和心算練習，鼓勵學生一題多解，以提升學生的高階思維。為了協助不同程度的學生掌握數學概念，各級均設有校本照顧個別差異工作紙，並且利用分層工作紙把學習目標仔細分析，讓學生掌握自己的學習進程，老師亦透過審題技巧指引及思考圖加強學生應用題的分析能力。

常識科著重為學生提供手腦並用的學習經歷，讓學生透過進行專題研習、模型製作、科學探究、STEAM 學習活動，從中學習及掌握解決問題的策略及技巧，培養學生對科學與科技的興趣和好奇心，提升協作精神及創新思維。此外，常識科舉辦親子種植比賽推廣環保的意識。再者，常識科教師經常引領學生就時事新聞進行討論，加強學生對周遭事物的關注，拓闊視野，並且增強對環境的關心與愛護，提高學生的明辨性思考、高階思維及自主學習的能力。另外，本科與數學科及資訊科技科合作推行 STEAM 校本課程，以培養學生科研和資訊素養為目標。

Characteristics of the School-based Curriculum

The subjects offered in our school include Chinese Language, English Language, Mathematics, General Studies, Music, Visual Art, Physical Education, Religious Education, Putonghua, Information Technology, Reading and Moral & Civic Education.

In P.1 and P.2, we carry out a Chinese literacy programme to enrich students' word bank through effective and interesting learning methods and thus students are able to read a variety of books. At different stages of learning, we use different levels of questions and teach different reading strategies to enhance students' thinking ability and critical thinking skills. Starting from P.1, students are trained to preview the lessons in order to enhance their self-learning ability. To cultivate students' self-directed learning skills, shared reading is implemented in P.1 and 2. Through reading picture books together, students' interest in reading, their sense of creativity and their ability in expressing themselves can all be enhanced. As regards P.3 and 4, a from-reading-to-writing approach is adopted so as to help students scaffold their writing step by step. Students are first instructed to do research on the topic first. During the lesson, students need to discuss, collaborate and share their ideas, thereby combining what they have researched and learnt in their writing.

As for our English curriculum, our school adopts the Primary Literacy Programme-Reading/Writing programme in P.1 to P.3 classes. Our Native English Teacher (NET) prepares interesting classroom activities to foster students' initiative in reading and writing. School-based course/books are also written by teachers to help build up a solid foundation for P.1 to P.3 students in English learning. In P.4 to P.6 classes, we use a from-reading-to-writing approach. Apart from teaching reading strategies, teachers also guide students through the process of writing in order to enhance their English language proficiency in both reading and writing.

To enhance the high-order thinking ability of our students, Abacus calculation is incorporated into our school's Mathematics curriculum accompanying with problem-solving activities and encourage students to solve one question in many ways by way of an exploratory approach. In order to help students with different learning abilities grasp the Mathematical concepts, we have designed levelled worksheet to cater for learners' difference. The learning targets are analysed in detail using tiered worksheets so that students can take control of their own learning process. Moreover, our teachers also emphasize on teaching the techniques of analyzing questions and mind-mapping in order to strengthen the analyzing skills of our students.

The combined use of hands and brain, problem-solving skills, scientific exploration, project-learning & model-making, thinking training and STEAM are the core elements in the learning of General Studies. Through these elements, students' learning experience can be broadened and students are motivated to take initiative on their studies. Moreover, students' independent-learning capabilities, creativity, cooperation skill and problem solving ability will be improved and their creative thinking ability nurtured at the same time. Through the "Family Planting Competition", students' greening and environmental awareness can be raised. Moreover, students' critical thinking skills can also be enhanced through the discussion of current social affairs.

Emphasis has been put to build up students' good reading habits. Other than a central library which occupies a gross area of 3000 square feet and classroom libraries, we also provide e-book reading account, library lessons and school base reward reading scheme to help students acquire reading strategies, develop their competence in and their love for reading, and finally building up good reading habits.

In order to cater for the learning needs of students in each level, a gifted education curriculum and talent pool have been developed in our school. 學生在課堂學習以外，學校亦會舉辦多元化的學習活動（如：中國文化日、英語日、數學日、STEM Day、全方位學習活動日、跨學科學習活動日、內地交流學習活動等），拓寬學生的視野，鼓勵學生自主學習，並激發學生的創意、思考、解難、協作等能力。

Learning Activities

Apart from the formal curriculum, we also broaden our students' horizon and stimulate their creativity, collaboration, thinking skills and problem solving abilities through multi-dimensional learning activities, such as Chinese Cultural Day, English Day, Mathematics Day, STEM Day, Life-wide Learning Activity Days and Mainland China Exchange Tours. 家校合作

本校的家長教師會定期舉辦家長講座、家長工作坊、親子聯誼活動、家長興趣小組等，以促進家長間的認識及加強學校與家庭間的溝通及聯繫，促進家校合作，讓孩子健康快樂地成長。

本校今年會繼續開設「家長團契」和「家長學堂」，跟家長分享基督的愛和交流教養孩童的心得。

Parent-Teacher Collaboration

Our PTA organizes seminars, workshops, parent-children relationship-building activities and interest classes regularly to strengthen the tie among parents and between school and parents, as well as enhance their mutual understanding. As a result, children can grow up healthily and happily.

This year, our school will continue to have "Parents' Fellowship" and "Parents' Learning Group" to share the love of God and provide an opportunity for parents to share the skills of nurturing children.

堂校協作

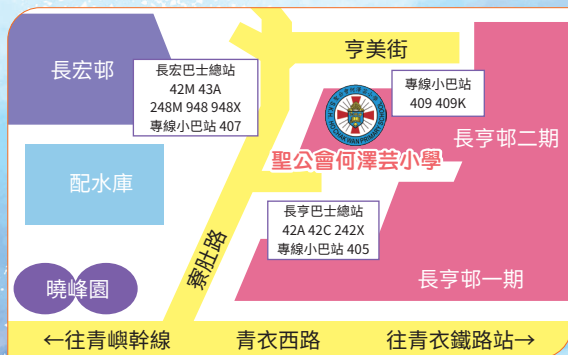

聖公會基督顯現堂主任牧師周偉文牧師是本校校牧，牧會經驗豐富。為了有效促進堂校協作，本校設有校牧室及小聖堂，讓家長及學生進行敬拜及小組活動。亨澤崇拜點於 2014 年成立，每星期為家長及學生舉行一連串的宗教活動，也於星期六下午安排聖餐崇拜、團契及主日學活動。教堂亦協助學校籌辦福音營、福音周及佈道會等，彼此關係密切，合作無間。

School-Church Collaboration

Rev. Chow Wai Man Joseph from the Church of the Epiphany, HKSCH, is our existing school chaplain. Rev. Chow has served in S.K.H. The Church of Shalom and S.K.H. All Saints' Cathedral before. He has rich pastoral experience and far-sighted concern on the preaching needs to students and their parents. In order to effectively promote school-church collaboration, the school has newly decorated two rooms into a chaplaincy and a chapel where parents can have worships and small group activities. Our school's Gospel Service Point was established in 2014 and has been arranging a variety of religious activities to our students and their parents on a weekly basis. On Saturdays, moreover, the church will arrange fellowship and bible learning sessions for parents and their children respectively, ending with a gospel service of which students and their parents are encouraged to participate. The church also helps organize activities like Gospel Camp, Gospel Week, Gospel Night and so on with our school. The bond between church and school is tight and our relationship is close.
